- > A young, dynamic, multicultural, and multilingual environment
- > A flat hierarchical structure

RESPONSABILITY

- > Coordinating cross-functional projects
- > Leading team discussions, keeping track of priorities and deadlines
- > Writing technical specifications and use cases for our digital products
- > Organising and conducting test campaigns prior to the release of digital products
- > Owning the documentation of our digital systems

REQUIRED QUALIFICATION

- > Organisational capacity, ability to work on several tasks simultaneously
- > Willingness to work on different topics, eager to learn new skills
- > Willingness to collaborate with interdisciplinary colleagues
- > Ability to simplify complex issues and solve challenging problems
- > Practical and proactive attitude
- > Experience of working with Agile methodologies
- > Languages: French and English
- > Basic experience with Microsoft 365 and SharePoint is a plus
